

WELDERS WINDSHIELD

OVERCOME THE ELEMENTS AND WELD OUTSIDE WITHOUT TO MUCH SET UP OR BREAKDOWN TIME.

REDUCE ARC FLASH OCCURANCES, WHEN MULTIPLE OPERATORS ARE WORKING IN TIGHT QUARTERS OF ONE ANOTHER

STEADY REST SUPPORT FOR OPERATORS HANDS AND ARMS, ALLOWING CONSTANT STANDOFF FROM WORK WHILE REDUCING OPERATOR FATIGUE

The **WW-1**, is designed and engineered from 16 gauge carbon steel which is laser cut and then precision broke to give it greater strength characteristics. The whole piece is then powder coated with black crinkle finish to reduce glare. With two 60 pound pull magnets on opposing corners the **WW-1** will hold firmly to any flat workpiece of ferrous materials. Design allows for multiple units to be stacked upon one another for shipping purposes. Overall dimensions are 33.5" x 7" x 4" and only weighing only 5.5 pounds fully assembled.

U.S. PATENT # 6,772,933 B2
